When selecting colors for our website design, we carefully considered elements that resonate deeply with Malaysian culture. The chosen color palette of **orange**, **white**, and **green** holds significant symbolism and ties closely to various aspects of Malaysian heritage, making it a rational and culturally relevant choice.

Orange is a color often associated with traditional Malaysian dishes and fruits, such as the tropical orange hue of mangosteens and durians. By integrating orange, we visually connect the website with the rich flavors and culinary delights that Malaysia is renowned for.

White is a color that symbolizes purity, cleanliness, and serenity. In Malaysian culture, it is often associated with religious and traditional events where white attire is worn. By incorporating white, we pay homage to the sacred and serene moments that define our cultural landscape.

Dark Blue is one of the colors featured in the Malaysian flag. By using this color, we pay homage to the nation's identity and sovereignty. It reinforces the patriotic sentiment that runs deep within the hearts of Malaysians.
